2023 Budget

2023 Budget Message

Introduction

The District was formed in 2016 for the purpose of providing design, financing, acquisition, and construction, of certain infrastructure improvements including water, streets, sanitary sewer, and park and recreation. These improvements will be dedicated to the City of Lakewood, Jefferson County, or such other entities as appropriate for the use and benefit of the District taxpayers and service users.

The 2023 budget was prepared in accordance with the Local Government Budget Law of Colorado. The budget reflects the projected spending plan for the 2023 fiscal year based on available revenues.

The Board of Directors authorized adjustment of the District mill levy in accordance with the Colorado Constitution, Article X, Section 3 (the "Gallagher Adjustment"). The Gallagher Adjustment and the District's Service Plan authorize an adjustment of the Maximum Debt Mill Levy in the event that the method of calculating assessed valuation is changed after January 1, 2004, by any change in law, change in method of calculation, or in the event of any legislation or constitutionally mandated tax credit, cut, or abatement. The adjustment to the Maximum Debt Mill Levy is determined by the Board so that, to the extent possible, the actual tax revenues generated by the mill levy, as adjusted, are neither diminished nor enhanced as a result of such changes. The Colorado General Assembly passed House Bill 17-1349 setting the ratio of valuation for assessment for real residential property at 7.2% (decreased from 7.96%) for property taxes commencing on and after January 1, 2017, and House Bill 19-255 setting the ratio of valuation for assessment for real residential property at 7.15% (decreased from 7.2%), commencing on and after January 1, 2019 until the next property tax year that the General Assembly determines to adjust the ratio of valuation for assessment for residential real property. The Gallagher Adjustment for the District allows for a total mill levy imposition, as noted in the following paragraph, so the District's revenue is neither diminished nor enhanced.

The District's 2022 assessed value is \$5,361,145 an increase from \$4,996,041 the prior year. The District certified 66.686 mills for taxes collected in the 2023 fiscal year with 22.154 mills dedicated to the General Fund and 44.532 mills dedicated to the Debt Service Fund.

Budgetary Basis of Accounting

The District uses funds to budget and report on the financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions. The various funds determine the total District budget. All of the District's funds are considered Governmental Funds and are reported using the current financial resources and the modified accrual basis of accounting. Revenues are recognized when they are measurable and available. Revenues are considered available when they are collectible within the current period. For this purpose, the District considers revenues to be available

if they are collected within 60-days of the end of the current fiscal period. Expenditures, other than the interest on long-term obligations, are recorded when the liability is incurred or the long-term obligation paid.

Fund Summaries

The **General Fund** is used to account for resources traditionally associated with government such as property taxes, specific ownership tax and expenditures which include district administration, legal services, and other expenses related to statutory operations of a local government.

The **Debt Service Fund** is used to account for property taxes and other revenues dedicated to pay the fiscal year's debt expense which includes principal payments, interest payments, and administrative costs associated with debt obligations. The District issued debt in 2017 and below is a summary of the District's remaining \$3,625,000 Limited Tax (Convertible to Unlimited Tax) General Obligation Bonds:
